The Guarddog® Pedigree

Over a quarter century ago, our company - Marc Evon Enterprises Inc. - created the world's first two-piece, mix 'n match skateguard. Throughout our years of innovation, millions of skaters, including countless internationally-renowned professional and amateur competitors, have relied on our guards for blade protection. And since so many skaters have called our guards their "blades best friend", we felt renaming our product, Guarddog®, was both fun and fitting.

Specific Guarddog® brand logos now appear on our figure skating, speed skating, and hockey guard packaging as well as key chains, pins, apparel, and other promotional items. Colourful Guarddog® packaging helps consumers clearly distinguish our product's quality features and incomparable performance record from inferior imitation brands.

Choose Guarddog® - the face with the name in blade protection. Whether it is a competition, exhibition, or simply some fun on ice, you can trust Guarddog® to protect that edge you need to maximize the moment
